### OUR MISSION

Our mission is to make Washoe County a safer and more inclusive cycling community. We hope to achieve this mission through a combination of events and activities, a focus on improving local cycling policies and infrastructure, and fostering connection

## WHY SUPPORT SUSTAINABLE TRANSPORTATION?

Bike racks on bike routes bring new happy customers. With better bike infrastructure comes more riders. Adding secure bike parking outside of your business supports bicycling as an affordable, healthy, and climate-friendly form of transportation in our city.

[WWW.BIKEWASHOE.ORG](http://WWW.BIKEWASHOE.ORG)

## ABOUT THE RACKS

Made of Steel! Powder Coated. Rust resistant, three feet tall, two feet wide, fit in small spots, inconspicuous. Just a 5 minute consultation and 10-minute installation.

Anchored to the ground with 8 bolts embedded in concrete by a TMBA volunteer with an impact wrench and you are on your way to having a safe place for your customers to lock their bikes or other multimodal devices.

## AFFORDABLE PRICING

For a tax-deductible donation of \$200, Truckee Meadows Bicycle Alliance will install a secure bike rack at your place of business.

We offer consultation services to help identify an appropriate location for a bike rack. We also provide bike rack installation, which normally takes less than 10 minutes.

**\$200 PER RACK**
